

From Mary Alston

Hello,

I hope I'm not a bother! My son Lucas is working hard on his 5th grade show and tell project. His Grandpa Joe got him into collecting Model Trains. He will be bringing some in to show off to his classmates. He also wanted to bring in some fun facts and information about trains! He actually found your page, <http://cincinnatichapternrhs.net/links.htm> to be very helpful. Thank you so much for that!

To say thanks, Lucas wanted me to show you another resource he enjoyed, <https://www.topviewnyc.com/packages/brief-history-of-new-york-city-transportation> . It's a history of NYC's transportation, but mainly focuses on it's trains and subways! He just visited New York City over the summer and loved riding on the subway and trains. He was thinking since he loved it so much, you might like to add it too!

Either way, Lucas wanted you to know he enjoyed your page! (Enough for him to thoughtfully ask me to reach out to say thanks). If you decide to add his resource he found, just let me know! A large portion of this show and tell project is research. He would certainly get extra credit if he showed his teacher you added it!

Thanks again!
Mary and Lucas
